

# Major Applications Of Guar Meal Korma

- Pet Food
- Cattle Feed
- Poultry Feed
- Fish Feed
- Swine(Pig) Feed

## Applications Outside Of Animal Feed

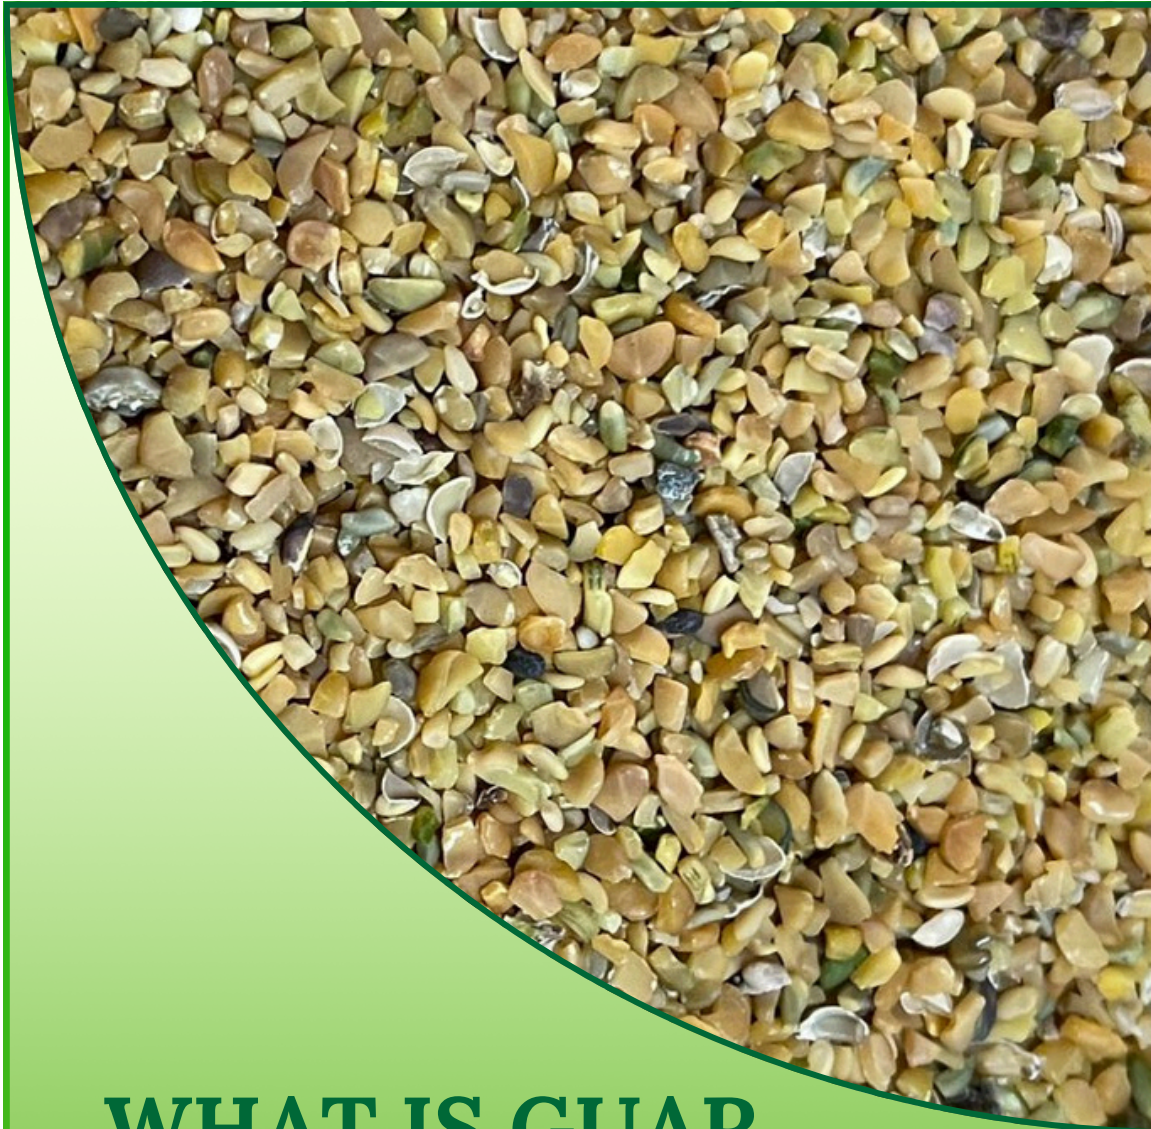

- Bioplastics
- Amendment to Soil
- Biofuel Production
- Food Additive
- Aquaculture and Fish Farming
- Organic Fertilizers
- Paper Industry
- Waste Water Treatment
- Construction Industry
- Brewing Industry

## Nutritional Profile of Guar Meal Korma

- Protein: 45%
- Carbohydrates: 40%
- Fat: 4%
- Fiber: 8%
- Moisture: 8%

## WHAT IS GUAR MEAL KORMA?

Guar Meal Korma, also known as Guar Korma or Guar Meal, is a by-product derived from the processing of guar (*Cyamopsis tetragonoloba*) seeds for guar gum extraction. Guar is a leguminous plant primarily cultivated in India and Pakistan. Guar gum, extracted from guar seeds, is a widely used thickening and stabilizing agent in various industries.

It mainly consists of the husk and germ of the guar seeds, and it is processed into a coarse meal or granules. The term "korma" refers to the residual material left after guar gum extraction.

## Benefits of Guar Meal Korma

### 1 High Protein Content

Protein is necessary for animal growth, maintenance, and reproduction. Guar korma meal is a rich source of protein.

### 2 Appetizing

Because guar korma meal has a nice flavor and aroma, animals enjoy eating it.

### 3 Digestibility

Animals can effectively absorb the nutrients in guar korma meal due to its excellent digestibility.

### 4 Cost-effectiveness

When compared to other protein sources, guar korma meal is a reasonably priced feed item.

## STORAGE

- Store in a cool and dry place.
- Keep it away from direct sunlight.
- Keep the packet tightly closed after use.
- Store it away from strong smelling substances or materials to prevent any unwanted flavor or scent transfer.

## PACKAGING

- Packaging materials are carefully chosen to ensure compliance with food safety standards and product integrity.
- All materials are resistant to moisture and external contaminants.
- Different sizes cater to diverse customer needs.
- Pouches, Bulk Bags, bottles and customized packaging are available.
